

CERTIFICATE OF APPROVAL

This is to certify that the Quality Management System of:

NTN Corporation
1-3-17, Kyomachibori, Nishi-ku, Osaka-shi,
Osaka-fu, 550-0003
Japan

has been approved by Lloyd's Register Quality Assurance
to the following Quality Management System Standards:

ISO 9001:2008, JIS Q 9001:2008

The Quality Management System is applicable to:

Design, development and manufacture of ball bearings, ball bearings for rolling bearings-insert bearings, clutch release bearings, roller bearings (Needle roller bearings, cylindrical roller bearings, tapered roller bearings, spherical roller bearings), cam followers, steel balls, cylindrical rollers, combined bearings, automotive components (Constant velocity joints, belt tensioners, ball screws, auto tensioners, auto air hub, clutch integrated pulley, mechanical clutch units, shoes, axle bearings) and precision machinery components (one-way clutches). Design, development and management of manufacture of condition monitoring systems for wind turbines. Design and manufacture of plastics products (sliding functional parts such as bearings, gears, seals, picker fingers for papers and so on, heat resistant parts like heat insulating sleeve etc., and elastic parts like boots for constant velocity joints etc.).

This certificate is valid only in association with the certificate schedule bearing the same number on which the locations applicable to this approval are listed.

Approval
Certificate No: YKA 4004498

Original Approval: 28 May 2010

Current Certificate: 28 May 2016

Certificate Expiry: 14 September 2018

Issued by: Lloyd's Register Quality Assurance Limited

Shizuoka-ken, 438-8510,
Japan

Activities

Planning and management of business
plan, information planning, control of
documents, training and education,
new products development, quality
management, procurement, logistics.

Design and development of ball bearings,
clutch release bearings, roller bearings,
cam followers and automotive
components (Constant velocity joints, belt
tensioners, auto tensioners, ball screw,
auto air hub, clutch integrated pulley,
mechanical clutch units, shoes and axle
bearings).

Planning and production planning.
